1/2

Education

- 2021 – 2025 **B.Tech Information Technology**, *K.S.Rangasamy College of Technology, Tiruchengode*, CGPA: 7.78.
- 2020 – 2021 **Higher Secondary Certificate**, *T.M.H.N.U Matriculation Higher Secondary School*, Percentage: 88.28.

Projects

AI-Based Plant Water Footprint Detection System.

- Built a responsive UI using HTML, CSS, JavaScript, and Flask templates.
- Integrated YOLOv11, GPT (via g4f), and OpenCV for detection and insights.
- Implemented live camera detection and image upload features.
- Created backend logic and user authentication using Flask and SQLite.

E-Commerce Application using React.js — GitHub Link.

- Built a full-featured e-commerce web application using React.js.
- Integrated FakeStore REST API to dynamically retrieve and display product data.
- Configured product listing, details, cart, and checkout pages.
- Used React Router, useState, and useContext for cart management.

Expense Tracker Website — GitHub Link.

- Created using JavaScript, HTML, and CSS with CRUD functionality.
- Added category filters: Food, Travel, Salary, Medicine.
- Added date filters: Last Week, Last Month, Last 6 Months, Last Year.
- Enabled search, add, edit, and delete with dynamic UI updates.

Certifications

- NPTEL – Privacy and Security in Online Social Media
- Infosys Certification Course in JavaScript Programming

Achievements

- Participated in Smart India Hackathon
